A few notes about night practice:

- We will be outside. Dress in layers and wear appropriate clothing and footwear for marching
- Remember to bring your instrument, drill and music to the field
- Practices are subject to change times or be cancelled with short notice. This will be communicated via REMIND. Please make sure you are signed up for the appropriate group so that you can receive announcements instantly.
- Remember - if there is a conflict with an OHS event, please be sure that your director and coach/advisor are aware. The policy for conflicts is as follows:

--Performances/games same time as practices

-----Try to attend both if possible. That may mean you are leaving a practice early or arriving to a practice - that is OK!

-----If it is impossible to split due to direct timing conflict, performances/games are priority over practices.

--Practices for athletics same time as practices for band

-----Split your time as best you can. This may mean you are coming late or leaving early from one practice to get to another. That is OK!

--Performances/Games at the same time

-----This RARELY happens. As always, if there is a conflict please communicate and be proactive. Coaches, directors, parents and students will work together to solve the conflict. It's all good :)
